

**Midterm Exam Schedule - Spring Semester 2021/2022**

Day	Date	8:30 - 9:30	10:00 - 11:00	11:30 - 12:30	1:00 - 2:00	2:30 - 3:30
Saturday	09-04-22	Discrete Mathematics	Electronics	Artificial Intelligence Pattern Recognition Autonomous Multiagent Systems	Natural Language Processing Multimedia Mining Enterprise Mobile Applications Development Game Theory Decision and Games Theory Selected Topics in Artificial Intelligence-2	Mathematics-3 Signals and Systems Multi-Objective Programming Database Design Computer Animation
Sunday	10-04-22	Mathematics-2 Mathematics-1 Mathematics-0	Data Structures	Object Oriented Programming Programming-2 Information Retrieval Data Storage and Retrieval	Data Mining Strategic Decision Making	Computer Language for Modeling
Monday	11-04-22	Structured Programming Programming-1 Fundamentals of Computer Sciences	Introduction to Software Engineering Software Engineering-1	Computer Graphics Computer Graphics-1 Production and Operations Management Computational Cognitive Science	Machine Vision Computer Vision E-Business Decision Theory Reinforcement Learning	
Tuesday	12-04-22	Probability and Statistics-1 Probability and Statistics-2	Fundamentals of Management	Advanced Operating Systems Micro Controllers Embeded Systems Data Warehousing Non Linear Programming Non Linear and Dynamic Programmig Reasoning and Knowledge Representation Introduction to Logic	Software Testing and Quality Assurance Cloud Computing Networks Selected Topics in Information Technology-2 (Cloud Computing) Advanced Image Processing Image Processing-2 Information Systems Quality Assurance System Dynamics Modeling Processing of Formal and Natural Languages	Computer Network Technology Computer Networks-1
Wednesday	13-04-22	Fundamental of Economics	Web Technology	High Performance Computing Parallel Processing Digital Signal Processing Data Communication Business Process Management Analysis and Design of Information Systems-2 Computational Intelligence Supervised Learning Theoretical Foundations of Machine Learning	Theory of Computation Selected Topics in IT-1 Selected Topics in IT-1 (High Speed Networks)	Logic Design Speech Processing
Thursday	14-04-22	Ethics and Professionalism	Introduction to Database Systems Database Systems-1	Concepts of Programming Languages Advanced Computer Networks Computer Networks-2 Web-based Information Systems Development Internet Applications Dynamic Programming and Stochastic Modeling Stochastic Models in Operation Research Theories of Mind	Compilers Managing and Modeling Big Data Managerial Economics and Financial Analysis Image Processing Image Processing-1	Cyber Security ERP

Old Bylaws Courses
